Kaltenborn course/Evjenth approach part III. (Lumbal spine, SI joint and valuation of TH spine), took place on 1-6 April 2008 in the Fokusmedical, the host was Matthias Burkert, Kaltenborn instructor from München.

Place: Fokus Medical, Rimski put 31b, 10360 Sesevete

A relatively good course, in my opinion this one (the third) was a bit lower on the scale than the first two.

The instructors "superiority" was shown partly on the selection of question which he didn't answer all despite the fact they were asked.

This problem happens on some of the courses where the instructors don't realize that they are highly paid workers and nothing else. For information they pass on the get paid a certain sum and that's that.

Pictures of the course (since I left the course a day early due to my disappointment that I have described above)
