Normal 0 21

Due to great interest on the 24th of October in 2008 another part 1 of the course “Basics of manual medicine” took place. There were 20 people present half of them were doctors and the other half were higher physiotherapists. The groups was extraordinary, a blend of youth and experience. Everyone can't wait for the next part in March 2009.

Clearly there are more and more interested people, which is simple excellent for the profession. The course organizer was the “Sv. Duh” hospital and they were superb.
